

Serviceaftale

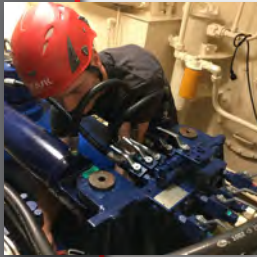

Service Agreement

Hydra-Teknik tilbyder kundetilpassede serviceaftaler.

Det vil sige, at der i tæt dialog med kunden udarbejdes en serviceplan for dit hydrauliske system. Det betyder, at du med en serviceaftale fra Hydra-Teknik sikrer dig, at dit system altid er i den bedste mulige stand og herved minimerer du risikoen for driftsproblemer og dyre nedbrud.

Hydra-Teknik offers customized service agreements. This means, that we in close dialog with the customer prepares a service plan for your hydraulic system. With a service agreement from Hydra-Teknik you make sure, that your system is always in the best possible condition and you minimize the risk of operating problems and expensive crashes.

En serviceaftale kan indholde:

A service agreement may contain:

- **Udskiftning af filtre.**
Filter replacement.
- **Kontrol af olien; partikeltælling eller olieanalyse.**
Control of the oil; particle count or oil analysis.
- **Kontrol af akkumulatorer.**
Control of accumulators.
- **Visuel gennemgang af systemet.**
Visual review of the system.
- **Udførlig service rapport med vores anbefalinger til vedligehold og evt. forberinger.**
Detailed service report with our maintenance recommendations and possible upgrades.

Ikke to systemer er ens og kunderne har forskellige krav til deres anlæg. Derfor udarbejdes alle serviceaftaler individuel så den tilpasses kundens behov. En serviceaftale hos Hydra-Teknik er din sikkerhed for et velkørende og driftsikkert system.

Not two systems are the same and the customers have different requirements for their systems. Therefore, each service agreement is prepared individually, so it is adapted to the customer's needs. A service agreement with Hydra-Teknik is your guarantee for a well-running and reliable system.
